---

No worries. Not much progress to report. Our POP expired at the end of August, so the only thing that has been going on has been electronically receiving PRP feedback on the draft data reports.

I provided ERG with updated cost estimate, and work plan first thing this morning. As we discussed, I also provided them bullet points regarding reasoning for size of Task B5 (pretty much what I covered on Monday).

Mark

**Subject:** Canceling tomorrow's progress call

I'm afraid I need time tomorrow to do a few things, so I'd like to cancel our progress call.
